

Tuskawilla United Methodist youth summer bible studies

“Life Hurts, God Heals”

(High School Girls)

Think about it. If you were physically sick you would go to a doctor. If you were failing school you would hopefully seek a tutor. But when it comes to emotional pain we often deal with it on our own. Life can be painful sometimes. During this study **we'll learn how to deal with life's pain and struggles in a healthy way** so that we may soon heal and learn how to better handle what life throws at us!

Led by: Nikki LaMott and Kathy Rexroad
Questions?? Call 407-493-6492 and
407-462-1505
Wednesdays 7:30p-9:00p

“Stick It Out: Getting a Grasp on Our Relationships”

(Middle Girls and Guys Only)

Chances are good that you've had a few relationships that were really good and a few relationships that weren't so good - for any number of reasons. Relationships require a 50/50 effort, but what if we could figure out how to make our part of the relationship the way that God always intended it to be? **This summer, we'll be discovering practical methods of having a Godly relationship, and finding ways to put those methods to use in our lives.**

Led by Chris Clark
Any Questions call (407) 405 - 8397
Wednesdays from 12:30p-2:30p

“The Summer of Living Like Jesus”

(High School Boys Only)

“I want to be like Jesus”. It's a statement that we've all heard and/or said at some point. But what are we really saying when we utter those words? Jesus was a *Jewish man* who lived *in the ancient world*, traveled around with his 12 disciples, *angered* the current religious and political authorities by *loving* in a radical way that *challenged the conventions* of his day, and he completed his life by *dying one of the most painful deaths anyone could ever experience*. Are we sure we know what it means to be like Jesus? This summer, we will *challenge ourselves* in many ways **to learn how to take Jesus' life more seriously**. We will also be dedicating some time each meeting to discuss some perennial problems that plague a **typical guy's existence: problems like sexual temptation, anger, and communication.**

Led By: Matt Dupree
